Objective

Aspiring Frontend Developer with practical experience in HTML, CSS, and JavaScript, focused on building clean, responsive, and user-friendly web interfaces. Experienced in both team and personal projects, eager to grow skills in modern frontend frameworks while contributing to development teams.

Technical Skills

Languages: HTML, CSS, JavaScript

Tools: Visual Studio Code, Git, GitHub, Live Server

Frontend: Responsive Web Design, UI/UX Implementation, Debugging, Cross-browser Compatibility

Projects

[Vista Suites – Hotel Landing Page](#) | [Personal Project](#) | [Live Demo](#)

Designed and built a modern, luxury-themed hotel landing page with responsive sections for suites, amenities, and booking information. Applied UI/UX best practices to deliver an elegant, professional user experience.

[Dishcovery – Recipe Sharing Platform](#) | [Team Project](#) | [Live Demo](#)

Developed Sign-Up, Login, and Dashboard interfaces. Collaborated with peers using Git and GitHub, debugged frontend issues, and ensured consistent UI delivery.

[QuicCalc – Web Calculator](#) | [Personal Project](#) | [Live Demo](#)

Built a responsive calculator using HTML, CSS, and JavaScript, focusing on usability, clean UI, and accurate logic handling.

Experience

Designed and developed responsive web pages and UI components using HTML, CSS, and JavaScript. Collaborated with peers to maintain high-quality code and resolved frontend issues through structured debugging.

Core Competencies

Strong problem-solving skills, positive learning mindset, attention to detail, effective team collaboration, and openness to remote opportunities.
