PROFESSIONAL SUMMARY

Motivated and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Skilled in creating clean, responsive, and user-friendly web interfaces. Passionate about building websites that look great, perform smoothly, and solve real-world problems. Quick learner committed to continuous self-improvement and innovative web development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript

Tools & Platforms: VS Code, Git & GitHub, Live Server

Design & UX: Responsive Layouts, Animations, Basic UI/UX Principles

Soft Skills: Problem-Solving, Communication, Teamwork, Attention to Detail

PROJECTS

QuickCalc – Simple Calculator App [Link\(\)](#) [View codes in github](#)

Lightweight calculator performing basic math operations

Built with HTML, CSS, and JavaScript

Fully responsive and minimal interface

GuessMaster – Number Guessing Game

Interactive number guessing game with dynamic feedback

Pure JavaScript logic for game mechanics

Simple, engaging, and user-friendly interface

Dishcovery – Recipe Sharing App (Ongoing)

Web/mobile platform for Nigerians to browse and share recipes

Developing Sign-Up and Forgot Password pages

Focus on accessibility, simplicity, and local cuisine usability

EDUCATION

Senior Secondary School Certificate (SSCE)

Year of Completion: *[June—20—2025]*

EXPERIENCE

No formal work experience yet; primarily focused on personal projects, skill-building, and hands-on coding practice

CERTIFICATIONS

Still working on it

INTERESTS

Web Development & UI/UX Design – I enjoy building clean and responsive interfaces, and I'm actively improving my frontend skills.

Learning New Tech Skills – I like exploring new tools, new coding concepts, and improving my speed in VS Code.

Music – I enjoy music — Which keeps me focused

Creative Problem-Solving – I like figuring out why code isn't working and fixing bugs.

Building Personal Projects – From My calculator to Dishcovery, I enjoy creating things from scratch.
